“ My heart hurts so bad. I can not imagine my life without my Granny. Anyone who knows me knows she has been my person from day one! I miss her so much already. I find some peace knowing that she is no longer suffering in this cruel world. And that she is rejoicing in heaven with the ones that have gone before her. I thank each and every one of yall for your kind words, thoughts and prayers as we endure the loss of a dear precious soul. I love yall

“ Too many memories to share... I have a lifetime of them... will love and miss her and I will miss her random phone calls just to check on everyone... I know one thing for sure... she loved her family! And never stopped praying for them!
